MEMORANDUM FOR: Deputy Director for Administration

FROM:

Director of Training and Education

SUBJECT: Officer in Residence Program

1 I am happy to report that we have made considerable progress in getting the Officer-in-Residence Program moving ahead.

2. In the forthcoming academic year CIA will have six senior officers on US campuses representing the Agency in the academic community. Each of these will have faculty-like status:

Harvard University JFK School of Government	Sept 1987
Rochester Institute of Technology	Sept 1986- Sept 1988
University of California at Santa Barbara Department of Political Science	Sept 1987
University of Texas at Austin - LBJ School of Public Affairs	Sept 1987
George Washington University School of International Affairs	Jan 1988
Georgetown University School of Foreign Policy	Sept 1987

SUBJECT: Officer in Residence Program

25X1

4. I have found considerable receptivity to the program among university administrators. In candor, the fact that Harvard is a full participant has been helpful in some of our discussions, since it is widely recognized as playing a leadership role in finding the right connection between the needs of the academic community and those of the government.

5. I would like to see us send some people to the Midwest next year. I have a commitment from the chancellor of Indiana University to place a CIA officer-in-residence.

25X1

6. In addition to the foregoing, [] will be entering the Artificial Intelligence Program at Carnegie this fall. As you are aware, Carnegie is at the forefront of A.I. work, and it took some sweet talk and more tangible sweeteners to get Goss on board as a special student.

7. Incidentally, the results are not yet in, but it looks as if we may be sponsoring more than 40 Agency officers in full-time academic training in the coming academic year. If so, this will be a larger number than any year in memory.
